

## **Bri-Tek Technologies Quality Policy**

Bri-Tek Technologies Limited is committed to sourcing, supplying, and installing top quality, energy efficient lighting products to both the domestic and commercial markets.

Our in-house and supply management processes ensure that our customers are only offered best value, fully tested, and responsibly sourced products complying with all applicable statutory and regulatory requirements.

Our dedicated and knowledgeable team are committed to assuring the best practicable delivery solution for every customer's requirements, from initial enquiry to order satisfaction.

The company's commitment to quality and customer satisfaction is underpinned by ongoing monitoring of our service and performance, with the permanent objective of continual improvement, and by the certification of our Integrated Management System to International Standard ISO 9001:2015

This Quality Policy has been approved by the Director of Bri-Tek Technologies Limited.
